

## Department of the Army, DoD

## § 644.380

to be excess. However, where permits were obtained at local level, DEs will effect relinquishment in the same manner. Unless otherwise instructed, no action will be taken by the DE to restore or return the lands pertaining to an industrial installation to the agency which granted the permit. DEs will, however, submit the report required in § 644.379.

(d) Where an installation embraces lands acquired in fee by a military department and lands acquired for temporary use from other departments or agencies, and if return of the latter type of lands to the department or agency which granted the permit would destroy the integrity of the installation or affect its ultimate disposal as a unit, a report will be made to DAEN-REM with recommendations that they will provide disposition instructions.

### § 644.379 Procedure for cancellation of permits.

(a) When permitted land is excess and the permit is to be executed, the DE will submit the following information with his recommendations to DAEN-REM:

- (1) Description and location of the property;
- (2) Date use was acquired;
- (3) Department or agency from which acquired;
- (4) Manner of acquisition; that is, by permit or other means, with copy of document;
- (5) ENG Form 1440-R, Cost of Restoration (Engineer Estimate and Appraisal), which includes a statement of cost and value of improvements or structures placed on the lands by the department;
- (6) Statement of restoration work performed by the department if any;
- (7) Statement of local representative of owning agency as to whether restoration will be required, or, where restoration work has been performed, whether such restoration is satisfactory; and
- (8) Statement that no clearance of explosives or other harmful elements is necessary because of the manner in which the land was used, or, if otherwise, statement of clearance action taken or necessary.

(b) Upon receipt of the foregoing information, the Chief of Engineers will effect relinquishment of the land by letter. Where the DE has authority to relinquish the land as outlined in § 644.378(c), he will effect relinquishment by letter addressed to the permittor, with a copy to DAEN-REM.

### § 644.380 Restoration of lands made available by other Government agencies.

(a) *Requirement.* Where the Department retransfers real property, the use of which has been obtained from other Federal agencies (including withdrawals from the public domain recommended for return to the public domain) by means of use permits, public land orders, or other methods, the property should be restored to a condition as good as that which existed at the time the department took possession, damages by the elements or by circumstances over which the Department has no control excepted, unless the agency from which the property was obtained expressly waives restoration. Restoration of public domain land will not be initiated until the determination is made that the land is suitable for return to the public domain. Public domain land that is to be reported excess to GSA will not be restored. The procedure enunciated in §§ 644.516 through 644.539 relative to neutralization of unexploded bombs or artillery projectiles located on leased premises applies with equal force to Government-owned lands returned to other Federal agencies and to public domain land that is to be reported as excess for disposal by GSA.

(b) *Authority.* The report of the Senate Appropriations Committee on the DOD Appropriation Bill, 1966 (Senate Report 625, 89th Congress, dated 18 August 1965), contained the following language:

Such funds as may be required may be used to restore lands under jurisdiction of other Government agencies, damaged while being used for military training purposes under agreement with such agencies.

The Comptroller General considers the foregoing to be a clear expression of Congressional intent, and that authority exists for the Department of the Army to restore (or make payment in
